

Aussie Butt Cream

Aussie Butt Cream is an anti-chafing, anti-friction chamois cream that aims to prevent and reduce chafing, abrasions, and bacterial and fungal infections that lead to saddle sores.

The natural anti-friction ingredients include Cocoa Butter, Beeswax, Lanolin, and Glycerine. The Tea tree oil gives antiseptic, anti-bacterial and anti-fungal qualities. Aussie Butt Cream is suitable for sensitive skin as it does not contain witch-hazel or menthol and does not contain petroleum based products, or parabens. Aussie Butt Cream is the official supplier to the Jayco Skins Mens Road and Track Teams and Cycling Australia Womens Road and Track Teams.
